COUNCIL COMMUNICATION

AGENDA TITLE: Traffic Resolution Amendment - Fire Station #2 (705 East Lodi Avenue) and Fire Station #3 (2141 South Ham Lane), "15-Minute Parking" Zones

MEETING DATE: December 18, 1991

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council amend the Traffic Resolution #87-163 to approve the installation of 15-minute parking zones in front of Fire Station #2 and #3 as shown on the attached map.

BACKGROUND INFORMATION: The Public Works Department has received a request from the Fire Department for the installation of limited on-street parking zones in front of Fire Station #2 and Fire Station #3. The basis of this request is to provide short-term parking for citizens stopping to report fires, traffic collisions, and other Fire Department business. On-street parking in front of Fire Station #2 (East Lodi Avenue) is not always available due to regular use by businesses in the area. Parking in front of Fire Station #3 (South Ham Lane) is heavily used during sporting events at nearby Beckman Park. Due to the lack of on-street parking available for the public access to the fire stations, vehicles have occasionally been parked in the driveway blocking the movement of the fire trucks.

The Police Department has indicated that Community Service Officers should be able to provide parking enforcement in these areas on an on-call basis.

Based on the Fire Department's need for available parking at fire stations for public use, staff recommends that City Council approve the 15-minute parking zones.

In addition to the limited-parking zones, the Fire Department has requested the installation of a 20-foot "no parking" zone between the driveway of Fire Station #2 and the driveway of the business (truck repair) to the west. This area is also shown on the attached map. Due to the short length of this parking area, some vehicles overhang into the adjacent driveways. The City code authorizes the Public Works Director to install this "no parking" zone and it is indicated here as a matter of information.
